Technical drawing of CNMG 120408E-FM tool showing dimensions and cutting parameters. The drawing includes a 3D view of the tool, a 2D cross-section view, and a graph of cutting force (F) versus cutting speed (V). The graph shows a peak cutting force of approximately 1600 N at a cutting speed of 0.15 m/min, and a minimum cutting force of approximately 0.45 N at a cutting speed of 3.0 m/min. The tool is shown with a cutting angle of 10° and a rake angle of 20°.
